

22. (Once amended) The immunogenic composition of claim 21 wherein said hemagglutinin is from an inactivated orthomyxovirus or a paramyxovirus.

Please cancel claims 23-25 without prejudice.

26. (Twice amended) The immunogenic composition of claim 21 wherein said target virus is selected from the group consisting of simian immunodeficiency virus, human immunodeficiency virus, feline immunodeficiency virus, or bovine immunodeficiency virus, rabies virus, measles virus, vesicular stomatitis virus, flavivirus, alphavirus or herpes virus.

Please cancel claim 29 without prejudice.

34. (Twice amended) An immunogenic composition comprising a sialic acid binding component and an antigen of an inactivated target virus wherein said sialic acid binding component is a hemagglutinin.
35. (Once amended) The immunogenic composition of claim 34 wherein said hemagglutinin is from an inactivated orthomyxovirus or paramyxovirus.

Please cancel claim 36 without prejudice.

37. (Twice amended) The immunogenic composition of claim 34 wherein the antigen of a target virus comprises sialic acid or polymerized sialic acid.
38. (Once amended) The immunogenic composition of claim 37 wherein the antigen of a target virus is comprised within inactivated target virus or virus-like particles of a target virus.

Please cancel claim 39 without prejudice.

40. (Once amended) The immunogenic composition of claim 34 wherein the target virus is simian immunodeficiency virus, human immunodeficiency virus, feline immunodeficiency virus, or bovine immunodeficiency virus, rabies virus, measles virus, vesicular stomatitis virus, flavivirus, alphavirus or herpes virus.

Please enter new claims as follows:

62. (New) The immunogenic composition of claim 22 wherein said orthomyxovirus is influenza virus.
63. (New) The immunogenic composition of claim 35 wherein said orthomyxovirus is influenza virus.
